Inmate Complaint OR Reason for Appeal (Print Legibly)

MAJOR Smith and Deputy Laura K. Williams has had me on recreation restriction for about 4 months and still ongoing. I have been put on recreation restriction due to excessive fishing out of cell which has nothing to do with recreation because I broke in recreation rules. I informed them both that their actions are causing me pain, stiffness in body, sickness in health due to multiple bullet wound to the body because lack of exercise due to recreation restriction. I have been experiencing chest pain because of the lack of exercise I am dying because of these restrictions for months on end. They are using recreation restriction with sadistic and malicious intent which is causing me excruciating pain and suffering. Therefore im requesting \$80,000.00 in civil action damages due to violation of my rights.
